

GOKUL SATHIYAMURTHY

Cybersecurity Professional | Roswell, GA | sathiyamurthygokul@gmail.com
github.com/gokulsatya | linkedin.com/in/gokulsathiyamurthy088

SUMMARY

Cybersecurity professional with 3+ years across vulnerability management, threat monitoring, and incident response: 1,000+ MITRE ATT&CK-mapped threat hunts, 100+ detection rules (KQL, YAML, JSON), and SIEM monitoring with Splunk and Microsoft Defender EDR/MDR, plus hands-on OT/ICS lab experience (Wazuh, GrassMarlin, OpenVAS). Currently building Azure AI Foundry agent workflows in Python at Synergech.

EXPERIENCE

Trainee Python Developer

Jun 2026 – Present

Synergech Technology Solutions — Alpharetta, GA

- Build Azure AI Foundry agent workflows in Python: Agent, Thread, Run, and Tool primitives, function calling, and a tool registry.
- Full-stack contributions (C#.NET backend, Angular frontend) on Omega, an insurance underwriting platform.

Cyber Security Analyst

Jul 2025 – Jun 2026

JustLabs by StableCoupons — New York, NY

- Performed risk assessments and security reviews for humanitarian projects, reducing security incidents by 30%.
- Managed firewall rules and security configurations via Git, cutting vulnerability exposure by 25%.

Cybersecurity Analyst | Defender Endpoint Expert | Threat Hunter

Apr 2021 – Aug 2023

LTIMindtree — Chennai, India

- Ran 1,000+ threat hunts mapped to MITRE ATT&CK, cutting mean response time by 30–35%.
- Investigated 550+ true-positive malware files and audited 200 critical alerts, cutting incident-response time by 40%.
- Built 100+ detection rules (KQL, YAML, JSON) and incident-response playbooks.
- Led 100+ security awareness sessions.

Security Engineer Intern | Cyber Range Student Assistant

Feb 2024 – Sep 2024

Cantonica Inc. & Pace University Cyber Range — New York, NY

- Ran vulnerability assessments and CVSS-based patch prioritization (Nessus, Nmap); remediated SQLi, XSS, and CSRF findings, cutting attack surface by 40%.
- Ran a Windows-based OT/ICS lab (Wazuh, GrassMarlin, OpenVAS) for 30+ users in the Con Edison OT Training Series.

PROJECTS

- **TerraGuard** — Python static-analysis tool detecting 20+ Terraform/AWS misconfigurations with remediation reports.
github.com/gokulsatya/TerraGuard
- **PhishGuard** — Chrome extension + Flask API using Random Forest and LSTM models for phishing detection, 94% accuracy. github.com/gokulsatya/phishguard-extension

SKILLS

Vulnerability & Patch Management: Nessus, Nmap, Burp Suite, CVSS | **OT/ICS:** Wazuh, GrassMarlin, OpenVAS

SIEM & Monitoring: Splunk, Microsoft Defender EDR/MDR, MITRE ATT&CK, Wireshark | **Compliance:** HIPAA, NIST, ISO 27001, PCI DSS

Cloud & Identity: Azure, AWS, GCP, Azure AD | **Networking:** TCP/IP, DNS, HTTP/S, Firewalls, VPN, IDS/IPS, SSL/TLS

Scripting: Python, PowerShell, KQL, SQL, Bash, JavaScript, C, Git

CERTIFICATIONS

Microsoft SC-200 — Security Operations Analyst Associate | CompTIA CySA+ (in progress)

EDUCATION

Pace University — M.S. Cybersecurity, May 2025

Anna University — B.E. Computer Science and Engineering, April 2020
